Flexible On-Site Interior Refinishing

Hy-Power's WATERBORNE electrostatic refinishing process can revitalize your work space overnight! We provide a full refinishing service with no hindrance to working activity. Employees can leave work and return the next day to a new office environment free of odors, coated with LEED compliant products. We're pleased to schedule services around your relocation, renovation, expansion or routine.

Regular Finishing and Refinishing work done by Hy-Power:

- Elevator doors and cabs
- Food cases
- Food storage rooms
- Freezer cases
- Hospital Furniture
- Laboratory furnishings
- Metal doors, staircases, lockers
- Office furniture and wall systems
- Railings and guardrails
- Retail service counters
- Washroom partitions

Color Palettes

Hy-Power works with color palettes that include specialty finishes such as metallic, mica, spatter and pearl.

Durable On-Site Exterior Refinishing

Hy-Power offers premium finish renewal services to improve the look of your business.

Weathering of materials such as anodized aluminum, architectural bronze and pre-finished surfaces typically lead to refinishing decisions. Consider working with us to get better value for your aesthetic improvement dollars. Safe, quick and quality service is our hallmark.

Hy-Power has experience with most Specialty Surfaces:

- Architectural Panels
- Brick and Stucco Staining
- Chain-link Fencing
- Garage Doors
- Graffiti
- Industrial Equipment (i.e. Transformers)
- Metal Roofs and Doors
- Rod Iron Furniture
- Playground Equipment
- Handrails/Railings
- Siding
- Store Fixtures
- Stucco
- Window Mullions
